EXTRACT FROM PARA 105- REPORT OF THE BANGALORE DEVELOPMENT COMMITTEE.

- - -

105. PLANTING OF AVENUE TREES (Vide page 82):-Within the Corporation limits of Bangalore, avenue trees have been planted on most of the broad roads. There are still some more roads where avenue trees could be planted, viz., East End and South End Roads of Basavangudi, Narasimharaja Road, Jayachamaraja Road, Hardinge Road, Bull Temple Road, Richmond Road, Monkey thope Road, Residency Road, Mahatma Gandhi Road, etc., Some of the avenues have come up very well, but it is very unfortunate that the branches are often cut by the Electrical Department owing to the power lines running close to them. This could be seen in Kempegowda Road, Road, Mysore Road, Venkatarangiengar Road in Malleswaram and Seshadri Road. The only way by which this could be avoided is to replace the overhead lines by underground cables. Sometimes private people also cut the avenue trees for firewood and for decorating purposes during festival days. This can be prevented by having a close watch.

While planting avenue trees, care must be taken to plant the right type of trees, as some of them spread their roots practically at the ground level and this has been a great danger to the neighbouring properties and particularly to sewer lines and water mains.

The Commissioner,
Corporation of the City of Bangalore,
('thro' the Mayor)

Sir,

Subject: Planting Avenue trees

In forwarding herewith an extract from the report of the Bangalore Development Committee, on the above subject, I am directed to request you to arrange to have Avenue Trees planted on the roads mentioned therein and on any other important roads, where there are no Avenue Trees at present. Instructions may be issued to the concerned staff to keep a vigilent watch to prevent Avenue Trees being cut by private people and to plant the right type of trees as suggested by the Committee. The Superintendent, Government Gardens, may be consulted on the question of selecting the right type of trees for being planted as Avenue trees in order to avoid the danger apprehended.

The Chief Electrical Engineer may be requested to replace the over-head lines by underground cables particularly where the power lines run close to the Avenues in the municipal area.

Yours faithfully,

(V.Hanumanthappa)
For Secretary to Government,
L.S.G. & Planning Departments.
